

Safety

With four independent braking systems, fail-to-safe dual circuitry and an impressive range of operator protection features, a safe and efficient working environment is assured.

Performance

Powerful AC traction and lift motors combined with the renowned Linde intelligent controller to deliver seamless, energy efficient performance for optimum productivity. Fixed clear view triplex masts with integrated sideshift as standard ensure smooth, highly efficient storage and retrieval cycles.

Comfort

A world first sees the operator's work station resiliently mounted to the base chassis isolating the operator from shocks and vibrations. An ergonomic, fully adjustable air suspension seat and integral control console housing the finger-tip joystick hydraulic levers together with a compact steering wheel gives unsurpassed levels of operator comfort. The unique Linde rheological electric steering system enables effortless operation and assured manoeuvring and travelling. In this superb, stress-free working environment, the operator is motivated and can fully focus on the task.

Electric Reach Trucks

Capacity 1000 - 2500 kg

R 10 - R 25 / HD / N / W

Series 1120

Linde Material Handling

Linde

Reliability

Durability and reliability are key elements in delivering cost effective supply chain solutions. Linde reach trucks benefit from the experience of over 60 years working in heavy industrial and commercial applications. All key components are designed and manufactured in-house to achieve these objectives. High residual capacities also result from this knowledge.

Productivity

With the new Li-ION trucks from Linde; time intensive battery changing, long charging times and costly battery maintenance are no longer necessary thus extending operational uptime and increasing productivity. The new Li-ION maintenance and emission-free battery technology enables intermediate charging opportunities during any break period, which eliminates the need for battery changing routines.

Standard Equipment/Optional Equipment

Standard Equipment

General:

Overall width (reach legs) 1270 mm/1140 mm (N-version)
Linde Load Control for lift/lower, reach, tilt and side shift
Linde twin accelerator pedals
Comprehensive digital instrument display
Sealed, maintenance-free AC 6,5 kW drive & 14 kW lift motors
Linde rheological 180° electric steering with tactile feedback
Linde Digital Control System (LDC) for smooth, precise electronic control of all traction and hydraulic functions
Polyurethane drive and load wheels tyres
New Standard Features:
Variable energy saving/performance modes (Economy, Efficiency, Performance) for individual applications
Resiliently mounted operator's compartment
Fully adjustable air suspension seat with auto adjustment for operator's weight
Integral, adjustable control console
Generous storage compartments
Lift height indicator above free lift zone
Key switch, or alternatively PIN code access

Mast:

Torsion-resistant fixed clear view triplex mast
Tilting fork carriage and integral side shift
Fork length 1150 mm

Safety:

Monitoring system stops truck in the event of traction, steering or lift failure
Seat-actuated traction interlock
Linde Curve Assist
Four independent braking systems (Regenerative and counter current braking, holding brake control with automatic parking brake and all-wheel brake system)
Automatic slowdown at end of reach travel and at max. lift
Lift height related travel speed reduction
Emergency isolator
Battery lock with creep speed interlock
Electrical and hydraulic overload protection
Protective polycarbonate screen between console and mast
Electric horn

Optional Equipment

Fixed clear view triplex masts with lift heights from 4355 mm to 12955 mm
Linde Dynamic Mast Control (DMC) with Electric Reach (ER)
Side shift centering
Horizontal fork leveling
Soft landing of forks
Fork extensions
Load backrest
Single axis joysticks for each hydraulic function
Single accelerator pedal, automotive layout with left foot interlock
180°/360° steering (single accelerator pedal only)
Reverse steering
Lift height pre-selector
PVC covered seat
Leather reinforced seat squab
Heated seat
Cold store protection to -30°C
Cold store cab (not available with narrow chassis)
Ambient cab (not available with narrow chassis)
High Vision armoured glass roof
Draught protection door
Protection frame
Steel mesh profile or polycarbonate insert for overhead guard

Profiled overhead guard for drive-in racking
Side guidance wheels
Load wheel protection
Mast mounted CCTV camera system
Vision system, combined cameras on overhead guard and mast, split screen image
Fan underneath overhead guard for driver comfort
Radio Data Terminal bracket
Option bar
Interior light
Auxiliary 12 V power socket
2 VertiLights diagonally mounted on the mast
LED standard working lights on over head guard
Rotating/flashing beacon
Blue Spot™ safety light
Connect Linde Fleet management
Audible traction alarm
Additional hydraulic circuit for attachments
Battery on rollers
Linde Li-ION truck version and Li-ION batteries (emission free, no battery changing required or battery maintenance)
Alternative colour schemes
Other options on request.

Features

Superb working environment

- Outstanding comfort and functionality from the unique, resiliently mounted work station with an air suspension comfort seat that is fully adjustable to the operator's personal preferences
- Integral, adjustable control console incorporating all operating controls
- Linde Load Control: precise, effortless fingertip control of all mast movements
- High Vision armoured glass overhead guard top panel available as an option

Linde twin accelerator pedals

- Seamless and effortless forward/reverse selection provides outstanding traction control and places minimal demands on operator
- His left foot is safely protected within the chassis contours
- The operator is able to maintain high levels of efficiency and productivity

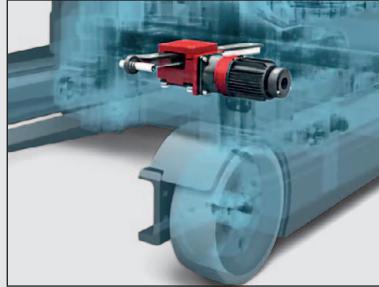

Precision

- Confident, seamless manoeuvring with unique Linde twin accelerator pedals
- High precision load handling with Linde Load Control
- Highly responsive and progressive electric rheological steering
- Digital instrument display for instant readout of truck status
- Integral, adjustable operator's control console

Manoeuvrability

- A short wheelbase with compact chassis dimensions and smooth, electric rheological steering ensure easy, efficient manoeuvring and accurate straight line traction performance
- Adjustable steering torque to suit operator's personal preferences
- Excellent all-round visibility of the load and surrounding environment

Linde Dynamic Mast Control

- A revolution in load handling ER & DMC - a world first for reach trucks
- The innovative core of this operator assist solution is the powerful and responsive, intelligent Electric Reach (ER) system
- The DMC based on Electric Reach counteracts the dynamic static mast deflection and oscillations generated during the lifting process

Stability

- Chassis designed and built for maximum strength and durability
- Heavy-duty design and components enhance the inherent low centre of gravity for optimum stability and high residual capacities
- Linde Curve Assist for safe cornering

Linde clear view mast

- Torsion-resistant fixed clear view triplex mast
- Twin cylinder configuration for optimum visibility
- Hydraulic hoses reeved through the mast to enhance visibility

Li-ION batteries

- Emission-free batteries
- No battery gases (hydrogen) and acid
- No battery change necessary
- No requirement for a costly battery charging/changing room facility
- No battery-maintenance
- No battery cleaning or water top ups required

	6.4.a	Battery energy content	(kWh)	[39.2] ^a
	6.5	Battery weight ($\pm 5\%$)	(kg)	939
Others	6.6	Power consumption according to VDI cycle	(kWh/h)	3.9
	10.1	Operating pressure for attachments	(bar)	200
	10.2	Oil flow for attachments	(l/min)	10
	10.7	Sound pressure level LpAZ (at the driver's seat)	(dB(A))	63

1) Alternative batteries may alter l1, Ast and service weight.

2) With ambient cabin + 95 mm

3) Including a 200 mm (min.) operating aisle clearance.

4) Some truck specification require a reach-back restriction. Please note information in Linde World mast table.

5) Attention, with cabin increased turning radius (Wa) due to required fender.

6) forward; backward

7) Depending on performance setting

8) Figures in [] with Li-ION battery see line 6.4

Technical Data according to VDI 2198

Characteristics	1.1	Manufacturer	LINDE	LINDE
